

ABCOM LIGHTYEAR® INTEGRATION

Approve and post bills seamlessly into your Abcom Accounting system anywhere, anytime.

GOOD BYE INVOICE ENTRY.

Lightyear is an optional add-on that compliments the traditional invoice entry process in your Abcom Accounts Payable system.

Designed and built in Australia, Lightyear uses world-first technology and IP to extract data from supplier invoices with 100% accuracy.

All of the data is imported directly with no data entry, including line-item information.

It is a cloud-based service, with \$0 upfront costs and no ongoing maintenance or storage fees. You simply pay a small monthly fee based on the volume of the bills you want to process.

It can be accessed from any computer or mobile device with an Internet connection and gives immediate visibility on bills, right down to line item and unit-price level.

Bills are presented to users through the Lightyear website, so from any computer or tablet-device, at work or at home, users can immediately check, approve and process them.

With workflows that can easily be tailored to suit your business requirements, in just a few clicks you can have the bill and the data automatically posted into your Abcom Accounts Payable System.

TAKE CHARGE.

Whatever you can do with a bill in the paper world, you can do in Lightyear, plus a lot more.

Add notes. Dispute them. Reject them. Forward them to other persons for their approval. Get multiple approvals if that's what you want.

No more gathering paper up at one location for postage to another. No more scanning. No more filing. No more price checking against agreed price lists. No more overcharging.

Abcom & Lightyear can process your bills for a fraction of what it is costing you now, faster and more accurately.

Accounts Payable Processing should be simple.

Abcom & Lightyear makes it so.

Abcom is a global Quick Service Restaurant systems developer that for over three decades has delivered business management solutions to some of the world's largest and most well-known brands.

Our growth and success has been achieved through an unparalleled reputation for excellent products and industry leading support powered by a highly experienced team representing many decades of IT and real QSR business knowledge.

We continually invest in cutting edge systems development using best breed Microsoft technologies; improving existing product value and always looking to further meet the needs of our customers into the future.

Abcom is a wholly Australian owned and operated business that prides itself on being a dependable and critical part of our customer's success stories.
